MEMORANDUM FOR THE RECORD

SUBJECT: Outside Panel--Early Retirement Regulations

1. In order to provide members of the panel with a declassified version of the Agency's Retirement Regulations for their review, I met with [] Office of Personnel, and [] Office of Security, on 28 October.

2. It was agreed that a necessary declassification could be achieved by removing page 3, which defines "Qualifying Duty" and substituting a sterilized version of page 3. [] reviewed our sterilized version of page 3 and agreed that nothing contained in it would be considered classified. [] suggested that with this substitution and an explanatory note on the security classification of the regulations, the regulations would no longer be considered secret even though all pages other than page 3 are so stamped. In line with this suggestion, the attached statement was affixed to each panel member's copy of the regulation. Also attached is the sterilized version of page 3.

3. Although the regulations are not now considered secret, it is understood that they are for "Official Use Only," and the panel members will be expected to treat them accordingly.
